

Lake DuBay Lions Park

Upgrades & Improvements

The Lake DuBay Lions have partnered with the Community Foundation of North Central Wisconsin to make significant improvements to Lions Park. To achieve their long-range vision for the park and provide more opportunities for the community, the Lions are looking for your financial support.

Much has been accomplished over the last year thanks to a combination of grants, donations from the community, Lake DuBay Lions Club funds, in kind contractor work and many hours of Lions Club volunteer labor. The status of our major projects is outlined below.

- An **ADA Compliant Fishing Pier** is complete and was dedicated on June 17th. It has been a popular attraction for fishing, relaxation and as a scenic venue for wedding pictures. The pier was built in partnership with Prime Water Anglers of Stevens Point.
- An **ADA Compliant Walking Path** along the southern shoreline from the Club's existing dock to the New Pier is complete and ends at Causeway Bridge.
- The **Existing Dock** was upgraded with railings for safety and additional supports with a bench to be added in the spring.

The following items are in various stages of planning and installation and require further community support.

- New **ADA Compliant Playground Equipment** has been designed which will increase the size and usability of the play area. Installation of ADA compliant engineered wood fiber surface, replacing the current sand base, will also be done with the new equipment installation. The playground is planned for completion in the summer of 2022.

➤ A **Pickleball Court** is being scheduled for installation in the summer of 2022. The park's west volleyball court will be removed to make room for the new pickleball court.

➤ A modern **ADA Compliant Vaulted Restroom Building** will be installed, completely replacing the existing pit toilets. A major donor has stepped forward with half of the required funding towards this project and matching funds have also been received. We are planning for the fall of 2022 for the installation.

➤ A **Kayak Launch** that will be accessible to the general public and designed for active seniors is also being planned. A grant has been received covering about a third of the cost.

It is an exciting time at our Lake DuBay Lions Park. We hope you agree that when all of the projects are completed, the park will be more accessible to all and add recreational opportunities for many in the area. Funding is still needed to complete these projects and may be allocated to a specific project if desired or just to the overall upgrade project. We thank you for your consideration of making a donation to this project.

You can make an on-line donation at the Community Foundation site, <https://cfoncw.org/> (select "Give Now" and search for "Lake DuBay...").
